IN THE ADVOCATE.

THE COUNCIL ADOPTED

## EXPERT ENGINEERS TO BE CALLED IN THE WATER WORKS PROBE

Are Now in the City and Will Go Over New and Abandoned Sites---A Witness Testifies as to Defectiveness of the Pumps.

The water works investigation by Examiner Heck was resumed Thursday morning but no testimony was taken at the morning session, the time being taken up in examining new plans by Charles Goffing of Cleveland, and Herman Gamper of Columbus. These men are expert engineers and were brought to Newark by Mr. Heck to go over the old and new water works sites, comparing the quantity and quality of the work done on each, and their deductions are to be given under oath to the examiner. Mr. Gamper did not get to Newark from Columbus until nearly 10 o'clock, and with his co-workers went to the council chamber, where the plans of the water works systems were spread before them.

Several men including J. P. Lamb, M. M. Taylor and W. C. Christian were present and explained the plans. Mr. Heck requested that the reporters should not go into the room, as any questions asked by the engineers would be merely incidental to their acquainting themselves with the situation, and would come out in their examination before him under oath.

Mr. Christian resumed his testimony at the Wednesday afternoon session where he had left off at the noon adjournment.

The 24-inch tile had not been condemned prior to January 1, 1906, but the board took the matter up soon after it went into office, and they were rejected by us, because they were not up to specifications as to size and thickness. Davis changed the plan for the power house without authority of the Board, the principal changes being made in the foundation. We also charged Davis with allowing defective pipe to be brought in and distributed along the streets. The pipes were inspected at the foundry and each had on it the letters 'A' and 'R,' meaning 'accepted' and 'rejected,' and if the latter the letter 'A' was to be chipped off, and if accepted the letter 'R' was to be chipped off. We found a number of pipes some having both letters left, and others the letter 'R' was left on. The board also had an inspector here on the ground, and the most of the pipe was finally accepted, after some controversy with Engineers Riggs & Sherman, and the first estimate was allowed in September. We allowed the pipes to be laid and if they stood the test given after they were laid, they would be accepted and I insisted on an increase of pressure up to 175 pounds at this test over the entire ditch, once testing 2,000 feet at once, sometimes more and sometimes less than 1,000 feet as specified in the contract.

We also charged Davis with making verbal threats, that he was running the job and not the Board of Public Service. He never said why he had clauses in different divisions of the contract, making him the final arbiter in all matters.

We also charged Davis with making estimates for extra work and receiving pay for the same contrary to the terms of the contract. This referred to the railway fill. We found a letter written to Mr. Lamb from Davis in which Davis called Lamb's attention to the fact that the estimate of excavation was in excess of that specified in the contract, which included the construction of a railroad switch at \$1.35 per linear foot, not including any fill, but merely for the laying of ties and rails.

The contemplated site of the pumping station was about 300 feet to the east of the present site. At the new location the excavation and grading would have been more. The amount of track complete, was about 1,200 linear feet. Excavation was to cost 5 cents per cubic yard. It was the intention that this covered both the excavation and grading. The estimates were approximate. Gate valves were to be 6, 8, 12 and 18 inches, the two latter clauses to be fitted with bypasses.

I got copies of the letters written by Davis to the Eddy Valve company from Davis's stenographer at Pittsburgh. Davis wrote to the Eddy Valve company, saying that the contract called for bypasses on 12-inch gate valves. Engineers do not consider bypasses

### AGED FORTY-NINER DIED SUDDENLY IN CALIFORNIA

Darius Ogden Mills, California's pioneer banker, who died suddenly at his winter home at Millbrae, was born in Westchester county, N. Y., on Sept. 5, 1825. When a boy he moved to New York city and found employment as a bank clerk, where he gained the fundamental knowledge of banking

D.O. MILLS

which in after years made him such power in the financial world. Late he was cashier in a bank in Boston, and when the California gold rush of 1849 started he went to the Pacific coast, taking ship around Cape Horn. He established a banking house in Sacramento, which spread into a network of enterprises and made him one of the first multimillionaires in the west. He was the founder of the famous Mills hotels in New York city. Mr. Mills was the father-in-law of Ambassador Reid.

(Witness identified forms of reports of pipe inspection, and also a letter concerning the matter written by Riggs & Sherman. These forms provided for date, number of pipe, diameter, breaking load, deflection, hydrostatic test, number and cause of pipe accepted and rejected, and were in use when Davis was in the board's employ. Another form from the Pittsburgh Testing company, that they used in reporting to Riggs & Sherman when they succeeded Davis.

The form used in reporting to Davis I should say was more complete than that used by the Pittsburgh company used in reporting to Riggs & Sherman. I don't know who paid for these inspections as the board had nothing to do with it."

A letter written by Sherman to the Board of Service stating that the Pittsburgh Testing company had accepted his offer of 15 cents per ton to inspect pipe at the Addyston foundry was read but Mr. Christian said the board had no interest in the matter when they succeeded Davis.

"Davis had not furnished us estimated weights of pumps according to contract, and this charge was also made by the board. We only found one blue print of pumps when we went into office, hanging on the wall. There were specified details of the pumps in the contract, except as to weight. The omission of these by Davis I thought showed dereliction on his part in not seeing that they were put in the proposal book of the dereliction was a serious matter.

"I think it was Davis' duty to require the contractor to live up to every detail of the contract.

"The charges against Davis met with the approval of every member of the board, and we requested an opinion of the solicitor in writing as to whether the board could discharge Davis. The opinion was given in which the solicitor decided that this could be done, and the board passed a resolution to this effect on February 1st and Davis was accordingly notified. He did not accept his dismissal gracefully, and made a personal visit to the office some time afterward.

"The injunction proceedings were on at this time, and the next action of the board in relation to the water works construction, was the employment of Mr. Mason as supervising engineer. The contract was made with Mason prior to the settlement of the injunction proceedings. We did not understand the injunction to apply to the employment of an engineer, but simply against the construction of the plant by the A. L. and W. Co. This contract was afterward rescinded at the instance of the solicitor, and Mason was allowed \$200 for work done under the contract.

The Board then received a proposition from W. P. Mason, accepting the position of engineer, to revise the distribution system and perform such work as is usually done by a consulting engineer. Mason was to receive \$300 per month, beginning May 1 and we entered into a contract according to his proposition.

Mason came to Newark probably a year before and I think was at that

(Continued on Page 4, Col. 3.)

## BALLINGER-PINCHOT REPORT SENT TO THE SENATE TODAY

Washington, Jan. 6.—The report and summary by United States Attorney General Wickham was presented to the Senate today by President Taft in response to a resolution requesting the executive to transmit all papers, reports, and documents in his possession relating to the charges made by L. R. Glavis, former chief of field office of the general land office at Seattle, in connection with the Cunningham coal claims in Alaska and such other information as he personal advancement.

### NEW KING OF THE BELGIANS WELCOMED AT ANCIENT CAPITAL

This is the first photograph to reach of a general. He was met at the gate by the mayor of Laeken, who read an address of welcome and pledged the loyalty of the communal council. Already King Albert has instituted several reforms, which have been in the measure of quieting in the entrance to the grounds of the royal residence at Laeken. The king is in uniform, attired in the full uniform

### LEGISLATURE MAY REJECT REPORT OF THE CODIFIERS

Columbus, O., Jan. 6.—The work of substituting for that of the legislature codification of the state laws was done. That changed the entire intent of the bill, a commission of three and cost \$75,000. Now some of the members of the legislature are talking of rejecting the report and starting all over again.

The codification is interesting to lawyers and public officials. It is doubtful if the average citizen would care whether the laws were ever revised.

A lot of peculiar things are being found in the revision. The codifiers changed the wording of many laws. In one the name of the governor was

preme court of the United States in civil cases involving \$5000 and in criminal cases punishable by death or life imprisonment. Trial by jury is granted in all criminal prosecutions for felony.

Since the expiration of the fifty-eighth congress there has been no act in terms authorizing the government of the canal zone, but President Roosevelt continued in existence the civil government of the zone after the act of April 28, 1904, became ineffective automatically.

The minority kept the house in session until 6 o'clock last evening by offering amendment after amendment and demanding tellers on each vote. A futile effort was made by Representative Richardson of Alabama to have the measure re-committed to the committee on interstate and foreign commerce, an axe and bay vote resulting 104 ayes and 130 nays.

Section two of the bill which confers on the president military, civil and judicial powers, including the power to make laws, was the object of spirited attack. Representative of Ohio joining the Democrats in the fight.

The attitude of the majority and minority on this section may be best described by a question propounded to Representative Townsend of Michigan by Representative Garrett of Tennessee, and Mr. Townsend's reply.

"Do you believe that congress has any power under the constitution to confer legislative power upon the president?" asked Mr. Garrett.

"Ordinarily, no," replied Mr. Townsend. "In this instance, yes. We are in Panama digging a canal, and it is necessary for the president to have the power to make rules and regulations for the government of the zone while that work is in progress."

Representative Mann, author of the bill, claimed that president for delegation of such power in the executive was forced to similar action by Democratic congressmen at the time of the Louisiana purchase and again when Florida was ceded to the United States by Spain.

The bill, as it goes to the senate, authorized the president to have the Panama Canal completed and to appoint a director general of the canal and the canal zone, thus doing away with the canal commission.

It invests the judicial power of the zone in one circuit court and such inferior courts as the president may constitute and allows appeal to the su-

## NEW COUNCIL IN CHARGE OF CITY CITY'S AFFAIRS

John M. Ankele Succeeds Jos. Kuster, Jr., as President of the Body---John Courtney Republican Elect From First Ward, Fails to Qualify.

The first real session of the new city council was held Wednesday evening in the council chamber, although a short session of the body was held Monday night. At the former meeting the members simply met and adjourned. Wednesday night's session was slow in getting started, but when the wheels were at last set in motion by President Ankele they moved rapidly, an executive session was held prior to the regular meeting and many little matters were adjusted by the body.

### PRESENTED WITH FLOWERS.

President John M. Ankele, who will preside over the deliberations of the council for the next two years, was greatly surprised when he took his seat at his desk, to find a big bouquet of flowers awaiting him. The bouquet was made up of roses, carnations, ferns and sunflowers and a card attached said: "To the Honorable President of the City Council, from the boys of Roland Lodge, No. 305, Knights of Pythias." The flowers that were given him so early in his political career didn't "fuss" the president noticeably and he went through with his part of the program in ship-shape order.

### THE NEW MEMBERS.

Before roll call the certificates of election were presented to Clerk McCarthy and all the gentlemen recently elected or re-elected to the council were present with the exception of John Courtney. The present city council is composed of Messrs. W. D. Fulton, John A. Prior, Henry Baker, Herman Eisner, L. A. Stare and Elmer Orr. As Mr. Courtney failed to appear Mr. O. D. Irwin again took his seat, which he will hold until Mr. Courtney qualifies or his successor is appointed. Mr. Irwin did not take any actual part in the meeting other than to answer to his name at roll call and he did not vote on any of the measures that came up.

### FULTON, PRESIDENT PRO TEM.

The election of officers was then brought before the body by President Ankele and upon the motion of Mr. Orr, Mr. W. D. Fulton was elected president pro tem of the council. The selection of Mr. Fulton was a wise one and met with the approval of the councilmen, for Mr. Orr's motion was quickly seconded by Mr. Eisner and the vote was unanimous.

James McCarthy, the present efficient clerk of the council, will again hold that position, for he was nominated by Mr. Stare and the motion was seconded by Mr. Prior, and he was elected by the total vote.

Frederick Rannenberg was again elected sergeant-at-arms of the council upon Mr. Fulton's motion, which found a quick second in Mr. Prior. Mr. Rannenberg has been a good man in the position and this fact was appreciated by the council.

### COMMITTEES APPOINTED.

President Ankele then made his committee appointments for the coming year, but since Mr. Courtney failed to qualify, his place on the Street, Public Service and Public Safety committees was left vacant. The appointments were:

Finance—Orr, Stare, Eisner.  
Streets—Elmer, Orr, Fulton.  
Public Service—Baker.  
Public Safety—Stare, Baker.  
Law—Fulton, Prior, Bolton.  
County Relations—Prior, Orr, Fulton.

State Relations—Baker, Stare, Prior.

**MAYOR ATHERTON'S REPORT.**  
A report from Mayor Atherton was then read which in brief said: "The bond Mr. A. P. Taylor is required to give and the duties he has to perform as city treasurer should allow him the amount of the estimate for clerk hire."

The council was also cautioned about passing a resolution or ordinance for the improvement of streets or sidewalks.

The city is today one vast skating rink overpowered by a canopy of fog. Surface and elevated trains have been blocked and stalled and no efforts are being made to give regular schedules. Horses fell to such an extent that the traffic was almost impossible and delivery business is practically paralyzed. Ambulance calls have been so numerous that express wagons were placed in commission.

One man was killed and several injured in a collision between elevated trains when slippery rails prevented the effective use of the brakes. Several small steamers have gone ashore at different points. More rains with freezing weather is forecasted today.

It may be true that a woman has no sense of humor, and yet they all want to be honored.

(Continued on Page 7, Col. 3.)

Mrs. King Dennis and Mr. and Mrs. Fred King royally entertained the employees of the King company shoe store with a six o'clock dinner on Tuesday evening at the home of Mrs. Dennis in Hudson avenue. The banquet table was artistically decorated with carnations and sunax and here the guests were seated to an elaborate eight course repast.

Those seated were Miss Sarah Jones Mr. Fred Jones, Mr. Chris Hermann, Mr. Walter Skinner, Mr. Claus Kuhn, Mr. Charles Wesson, Mr. Clark Martin, Mr. Fred Ryan, Mrs. Dennis and Mr. and Mrs. King.

Miss Mae Lam of West Main street pleasantly entertained the members of the Wednesday evening sewing club at her home this week on the club day.

The members of the Beta Phi fraternity and a number of their lady friends spent a very pleasant evening on Wednesday dancing in Assembly hall. Nish's orchestra furnished the music for the dance which continued until twelve o'clock when an appetizing three course supper was served the guests at one large table arranged in the balcony. Upon the surface of the festal board ferns were artistically arranged. A cosy corner at the further end of the dance hall formed a favorite retreat for the guests between dances.

Among the guests were Mr. and Mrs. J. S. Elliott and Mr. and Mrs. Edward King, who acted as chaperones and Mr. and Mrs. Julian Long, Misses Anne Davis, Catherine Sedgwick, Corinne Miller, Lenora Phillips, Sarah Seymour, Mary Nichols, Louis Norrell, Hazel Albrecht, Annette Besuden, Ruby Hoyt, Dee Shuman, Grace Wilson, Mary Hillier, Elizabeth John, Miss Hillier of California, and Miss Ethel Jones of Columbus.

Messrs. Raymond Matticks, Howard Fordyce, Howard Rugg, Paul Sachs, George Upson, Howard Upson, Arthur Schauweker, Robert Hayes, Donald Ferguson, Emerson Brillhart, Fred Bradock, George Hirshberger, Lee Moore, Mr. Clouse of Elkhart, Indiana, Mr. Harvey and Mr. Robert George of Mt. Vernon.

Miss Maude Pratt was the hostess on Friday afternoon at a thimble party in her home on Andover street. The hours were busily spent with the needles, and a guessing contest was enjoyed, after which refreshments were served.

The guests were Misses Olive Orr, Jessie McClure, Nellie McNealy, Lillian and May Kammerer, Frances Priest, Mary Owen, Katherine Vance, Mrs. Halleck Hilliard of Lima, Ohio.

Mrs. Grace Howell of Linden avenue entertained the members of the Wednesday Afternoon Thimble club at her home this week and the hours were spent in doing needle-work, followed by the serving of a dainty refreshment. Mrs. Howell was assisted in entertaining by her daughter, Mrs. Fletcher Scott.

The next meeting of the club will be held on January twelfth with Mrs. J. W. Hornby of West Main street.

Mrs. D. J. Simpson of Granville was hostess to the United Reading circle on Tuesday afternoon and the following

for an early breakfast, nothing so fine as Mrs. Austin's Buckwheat cakes. Fresh goods now at your grocer.

**PERSONALS**

Attorney T. H. Wheeler of Coshocton was in Newark Wednesday.

Frank R. Dowse has returned from a visit with friends in Chicago.

Miss Katherine Simonds went to Dayton today for a stay of a few days.

Mrs. Erie Bell is visiting her parents Mr. and Mrs. Lehmingher of West Lafayette.

Miss Jessie Gilmore has returned to her home in Coshocton after a pleasant visit in this city.

Mr. Young San of the Holophane company has returned from a business trip to New York City.

Mr. Harry Hall, the day driver for the U. S. Mail wagon, is off on a vacation visiting relatives in Pittsburgh.

A. C. F. Kehler, Illuminating engineer of the Holophane company, left for New York Wednesday evening.

Miss Clara Bucy has resigned her position with the Griggs company and she will go to Columbus to make her home with her parents.

Miss Marguerite Matticks who has been spending the holidays at her home in this city, has returned to her studies at Oberlin college.

Mr. Harry Connors, the popular local conductor on the Shawnee division, is confined to his rooms in the Speer & Kellogg flats.

D. H. Hier of Cincinnati who has been visiting friends in this city for several days, returned this morning to take his studies at Purdue university.

Miss Florence Binder entertained the Y. G. I. U. club at her home in Columbia street with a New Year's watch party. The house was beautifully decorated in red and green and various games were enjoyed during the evening, at the close of which prizes were awarded to Miss Bessie Thomas and Mr. John Winters.

At a late hour dainty refreshments were served to the following: Misses Bessie Thomas, Mary Hutson, Abigail Harris, Bernice Botwin, Cloe Schatz, Rose Nixier, Florence Binder, Mrs. Smith, Mrs. Maurath, Mr. and Mrs. Robert Lytle and children, Mr. and Mrs. Binder, Messrs. Anthony Stare, John Winters, George Piel, Carl Rynbold, Charles Harris, Harry Hunt of Utica, Frank, Earl and Max Bider, Bernard Maurath, Miss Mabel Marriott of Columbus and Mrs. Edward Rogers of Dayton.

For an early breakfast, nothing so fine as Mrs. Austin's Buckwheat cakes. Fresh goods now at your grocer.

STEADY GROWTH

Nashport, O., Jan. 6.—The practice

of C. W. Fleming, a tinsmith of Highwood, just north of Nashport, to awake early in the morning, resulted in his home being saved from destruction by the Wednesday morning, for he extinguished an incipient blaze which had been started by hot coals rolling out on the ground upon the floor.

When Mr. Fleming awoke he smelled smoke, and started an investigation.

The hot coals had set fire to the carpet, oil cloth and floor, and the blaze was burning merrily when discovered. Some of the Fleming children's clothing lying before the fire were also burned.

Had the accident happened earlier in the night, the fire would have gained too great a headway to have been extinguished, and the loss would have been heavy. As it is the loss is small, and is covered by insurance.

STEADY GROWTH

The following press notices regarding Miss Dorothy Lethbridge, who will appear at the High school Auditorium Tuesday evening, January 11, will interest with interest by the music lovers of Newark:

The Wheeling Register, March 21—

The Dorothy Lethbridge recital last night was the event of years in Wheeling, and a packed house greeted the artist on the occasion of her second appearance here. The tone, coloring and effects brought out by Miss Lethbridge were, to say the least, marvelous.

Pro. Henry J. Arbenz, of the Washington Conservatory of Music, graduate of the Royal Conservatory of Music in Stuttgart, says of Miss Lethbridge in a letter dated December 12, 1908: "We have had the world's greatest artists, including Paderewski, here in Washington, but I can honestly assure you Miss Lethbridge proved her to be the greatest virtuoso."

The Washington Reporter-Miner was expected to be fully forthcoming, but all expectant it was supposed to be. At the Nixon theater last night the audience was unprepared for a genuine treat given by the performer. The program was one of stupendous proportions, but Miss Lethbridge was more than equal to the demands made upon her. Her technique is nothing short of大师's.

GREAT SOUTHERN THEATER.

The engagement of James K. Hall

at the Southern theater, Columbus, Tuesday, June 1, 1916, will be a grand success, according to the manager, Mr. George W. Johnson.

Mr. Hall is a well known and popular singer.

### Jan. 6 In American History.

1811—Charles Sumner, Massachusetts senator and statesman, born in Boston; died in Washington 1874. Sumner acted as a confidential adviser of President Lincoln.

1833—Carlo Alberto Cappa, famous band leader, died in New York city; born in Sardinia 1824.

### ASTRONOMICAL EVENTS.

Sun sets 4:44; rises 7:21; moon rises 3:50 a. m.; planet Mercury visible low in west after sunset; 3 a. m., eastern time. Jupiter's outer satellite No. 1 missing; the other three on the east of the planet; 11 a. m. Venus' greatest brilliancy, conspicuous in southwest after sunset each evening.

In regard to the increase cost of necessities of living to consumers in this epoch of tariff-made prosperity, we have the consoling assurance of Senator Lodge of Massachusetts that consumers are mere myths. That is stand-patism of the rampant type.

While the tariff has no effect upon the price of wheat, of which we produce a large surplus, it probably has an effect upon the price of meats, of which we should produce a large surplus if the Beef Trust did not restrict the supply. In an open and free market the supply of cattle, sheep, and hogs would force down the price of meat, but the Chicago and Omaha packers had nearly exterminated competition in the East even before they consolidated into the Beef Trust. Under this combination the supply of meat is carefully proportioned to the ability of the consumer to pay.

Germany used 300,000-horse power developed from water; France, 650,000; Italy, 184,000; Switzerland, 180,000. Over 5,250,000-horse power from water is now developed in the United States.

### GOV. HARMON AND THE INCOME TAX

Columbus, O., Jan. 6.—Governor Judson Harmon last night, replying to an inquiry from New York for his reason for recommending the ratification of the income tax amendment to the federal constitution, said:

"Country between divided sovereignties should receive the amendment to be taken as applying to income from private sources only. At any rate I have no fear that congress, being elected by the people of the states, would ever pass a law which would cripple or destroy those states. If it should attempt this, its constituents would

not because it is Sarsaparilla, but because it is a medicine of peculiar merit, composed of more than twenty different remedial agents effecting phenomenal cures of troubles of the blood, stomach, liver and bowels.

Thus Hood's Sarsaparilla cures scrofula, eczema, anemia, catarrh, nervousness, that tired feeling dyspepsia, loss of appetite, and builds up the system. Get it today in the usual liquid form or in dissolved tablets form called Sarsaparilla.

## SHOWN UP BY HARMON.

Did you note these figures in Gov. Harmon's message to the legislature showing the growth of state expenditures in the past 20 years?

Look at them again: Total expenditures in 1890, \$3,484,806; total in 1900, \$4,904,767; total in 1905 (the latest officially reported), \$8,194,408.

Now set them down in a row in big black figures and take another look:

1890	1900	1905
<b>\$3,484,806</b>	<b>\$4,904,767</b>	<b>\$8,194,408.</b>

Total cost in 1905 nearly double what it was only eight years before 1890, and nearly three times the cost of 1890.

Well, what do you think of it? All seceded, matured and ripened under continuous Republican administration in Ohio, excepting the interval of a few months in 1897 that a Democratic governor lay on his death bed from the day of his inauguration.

These figures have been a revelation. They have astounded the people and staggered the Republican apologists. No governor before Judson Harmon ever drew such a deadly parallel. It took weeks of patient and diligent search to dig out the figures and put them together so as to be sure of them, so sure that the most expert g. p. juggling cannot refute them.

Now the juggling has attempted to explain these figures away on the ground of additional institutions, high cost of living, etc. It won't do. It can't be proved by the per capita cost of each institution. Nor does it account for the growth in expenditures of the legislature itself from \$138,764 in 1890 to \$157,026 in 1890 and \$306,914 in 1905 or nearly twice the cost of legislation in 1900 and nearly three times the cost in 1890.

Governor Harmon's compilation of figures shows increases in almost every department of the state government.

A Republican legislature boosted appropriations at the special session last year nearly a million higher than 1890, and is continuing to boost them still higher this year so as to charge extravagance to Governor Harmon's administration. But Governor Harmon beat them to it. If the legislature attempts anything of the kind it will add another chapter to the record of constantly increasing expenditure and extravagance of the past 18 years.

It was thus Ohio had a governor who knew how to get at and reveal the truth. The State of Ohio needs Judson Harmon in the governor's office another term to get all the facts that need ventilation.

All political graves with their law tucked in beside them. The risk of abuse of the power is entirely too remote and slender to compare with that of leaving in doubt the power of congress to tax incomes in emergencies like the civil war, when it was so helpful in saving the Union."

### DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Newark People to Neglect.

The great danger of kidney trouble is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, erythema, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Newark.

G. E. Walton, 129 Valandigham St., Newark, O., says: "A few years ago gave a public statement regarding the merits of Doan's Kidney Pills, and at the present time I gladly confirm that testimonial. My kidneys were inactive for years, and caused dull pains across the small of my back often changing to sharp twinges. The constant standing necessary in my occupation greatly aggravated my trouble and I was in misery. Hearing of Doan's Kidney Pills I procured a box at Crayton & Co.'s Drug Store, and they soon removed every symptom of the trouble. I think very highly of Doan's Kidney Pills and am constantly recommending them."

For sale by all dealers. Price 10 cents. Foster-Milburn Co., Buffalo, offer but he declined. Mason's appraisal was \$7,000.

The board had no right to negotiate with Verrill for the purchase of the plant but we expected to act in conjunction with the city council.

On May 21 the board made an offer in connection with the council and mayor to Fred M. Black, attorney for the owner of the water works plant, to submit to the voters a proposition to pay \$7,294 for the old plant. This proposition was intended to be final, and was signed by Mayor McCleary, the members of the Board of Service and the Council.

If this had been accepted, and the people had voted to give the \$7,294, it was intended to use the balance of the \$7,294 for the dismantling of the municipal plant. I was personally of the opinion that the old water works company had not had a fair opportunity of disposing of their plant to the city, and I wanted to see this done. I talked to some, but what I said could in no way be binding on the city, but I wanted to see the company have a chance to dispose of their plant, and every one satisfied.

I think McVeigh was opposed to the purchase of the old plant under any conditions.

A latter proposal was made by Ricks & Sherman of the old plant on April 1, 1906, after Verrill and associates had refused the \$7,294. They did not recommend Sherman when he made the proposal, and at the direction of the city council I personally think the \$7,294 appraisal was nearer to the true value of the old plant.

Witness was shown a letter pertaining to have been written by Davis to the A. L. & W. Co. on Nov. 1, 1906, in which Davis said that as it was necessary to increase the building of the pumping station, he agreed to make certain changes without any extra expense to the city of Newark. Another letter from Davis to John P. Lamb dated November 15, was read, in which was enclosed a letter he had written to the A. L. & W. Co., mentioning above.

These changes were made and as a matter of fact the amount of concrete work was increased, entailing an increase of the cost to the city. Mr. Craig, a sub-contractor, stated that

he was to receive \$700 extra for increased iron work. He made this statement to Mr. Taylor and me, but was not official information. These changes materially increased the cost to the city. These changes included 300 feet increase of the intake line, the laying of an additional side track to bring in the coal, and other extra work not specified in the contract nor in the bids. The aggregate of the amounts made necessary by these changes, amounted to \$10,357.25. I arrived at this amount by coming along with the plans as they were changed.

I think a supplementary contract would have been necessary to make these changes of the original contract. In the final settlement, no part of this \$10,357.25 was allowed, to my knowledge.

Witness identified an estimate made by Ricks & Sherman as a correction of the Davis estimate of material and work on the abandoned site. The estimate of the cost amounted to \$11,474. No work was done after the injunction was issued.

The value of the material used on the abandoned site that was used in the work in the new site by our board was about \$100, leaving the net loss about \$9,000.

The revised contract regarding the pump station was let in a lump sum.

Mr. Christian was shown two estimates, and then revised his figures as to the cost of the abandoned site, stating that it was \$11,545.25, from which \$1,400 should be deducted. To arrive at the loss occasioned by work and material at the abandoned site.

The construction of the track at the old site cost \$1,339.67 not including labor. The sum of \$10,201.77 would represent the cost of material and labor at the old Hamill site that was abandoned.

Robert Evans was sworn and testified that he had within the last five years worked for the American Light and Water Co. On the 3rd of November 1905, he began running a centrifugal 6-inch pump on the old Hamill site, to keep the water away from the excavation work.

This 6-inch pump I would guess, would pump 650 or 700 gallons per minute. I also operated a smaller pump, but only occasionally. Both were run at only a medium speed, 24 hours a day, seven days in the week, and we were enabled to keep the water out of the excavation. I worked there until some time in January, when I quit. Some times we would have to stop for a few hours when the water would accumulate, but we pumped it out without difficulty.

We afterward employed him as consulting engineer and to inspect the work done and to be done by the A. L. & W. Co., for the sum of \$700, which included what he had already done. This was done June 22; the injunction was decided June 26th. We did not advertise for bids for a consulting engineer. I did criticize the Lambl board for not doing this. The solicitor said that we could hire an engineer month by month as long as the sum expended each month did not exceed \$500, and it was our intention to hire him a month at time. We paid Mason \$700 at one time.

I did not investigate Mason's ability, but thought that in a month we could find out as to his competency by the work done by him.

After the injunction was dissolved, we did not take any action for several days, and then the solicitor informed us that he would bring an injunction to determine the matter brought out by the State Board of Health which did not enter into the former suit.

On May 15, I think, Mr. Verrill bought the Newark Ohio Water Works, on a foreclosure proceedings, and came to the board soon after with a view of selling the water works to the city. He made several propositions and we had Mr. Mason make an appraisal. Verrill wanted to exercise his right under the franchise of appointing an appraiser, the city to appoint one, and the two to select the third. I objected to this as I was afraid the company would own the three appraisers. I made him a direct offer but he declined. Mason's appraisal was \$7,000.

The board had no right to negotiate with Verrill for the purchase of the plant but we expected to act in conjunction with the city council.

On May 21 the board made an offer in connection with the council and mayor to Fred M. Black, attorney for the owner of the water works plant, to submit to the voters a proposition to pay \$7,294 for the old plant. This proposition was intended to be final, and was signed by Mayor McCleary, the members of the Board of Service and the Council.

If this had been accepted, and the people had voted to give the \$7,294, it was intended to use the balance of the \$7,294 for the dismantling of the municipal plant. I was personally of the opinion that the old water works company had not had a fair opportunity of disposing of their plant to the city, and I wanted to see this done. I talked to some, but what I said could in no way be binding on the city, but I wanted to see the company have a chance to dispose of their plant, and every one satisfied.

I think McVeigh was opposed to the purchase of the old plant under any conditions.

A latter proposal was made by Ricks & Sherman of the old plant on April 1, 1906, after Verrill and associates had refused the \$7,294. They did not recommend Sherman when he made the proposal, and at the direction of the city council I personally think the \$7,294 appraisal was nearer to the true value of the old plant.

Witness was shown a letter pertaining to have been written by Davis to the A. L. & W. Co. on Nov. 1, 1906, in which Davis said that as it was necessary to increase the building of the pumping station, he agreed to make certain changes without any extra expense to the city of Newark.

Another letter from Davis to John P. Lamb dated November 15, was read, in which was enclosed a letter he had written to the A. L. & W. Co., mentioning above.

These changes were made and as a matter of fact the amount of concrete work was increased, entailing an increase of the cost to the city. Mr. Craig, a sub-contractor, stated that

and they gave an exhibition on Fourth street after this test.

On September 18, 1905, I began to work there again, and on October 1, began pumping water through the mains for fire protection. The engines worked alright for me. I was there until November, 1905. About September 15, 1905, I noticed the cylinder on No. 1 engine beginning to leak, and became in such a condition that I couldn't repair it. I notified the board. I think that this condition existed in the pump at the time it was installed. Don't know if any member of the Service Board knew of any defect at the time it was installed.

"After I notified the board a representative of the Platt Iron Works came to the plant, about September 24. He took the cylinder head partly off, and said he would go back to Dayton and report the matter to the Platt Iron Works. He returned on September 29, and made repairs. He brought a new bolt along and re-tapped the cylinder, but made no repair of the defective cylinder. Nothing was done after this. Between July 7 and September 18, I went to the plant nearly every day, while men from the Platt Iron Works were working on the pumps. Did not hear any of them say as to the length of time it would take to get the pumps into condition.

"Soon after I took charge I began to have trouble with the dash pots. I notified the board and they notified the iron company.

"I did succeed in getting the pressure up to 105 pounds only for a minute at a time, but the average was about 90 pounds. The pump would have had to be run to its fullest capacity to pump 5,000,000 gallons per day. The boilers were in good shape, but I noticed in February, 1909, that oil was leaking into the boilers, and this would soon have ruined the boilers if it was allowed to continue. This condition was remedied by putting oil separators into the exhaust line, which should have been done in the start. I noticed no other defects in the boilers, which were of 150-horse power, requiring 4 1/2 to 5 tons of coal per day to run them. I considered the pumps to be good ones. I never ran pumps before, but the defects I have mentioned were so apparent that I could see them."

## SWITCHMEN

Will Remain Out as Efforts to Settle Strike Have Been Abandoned.

Washington, Jan. 6.—All efforts to bring about a settlement of the switchmen's strike at St. Paul have been abandoned. Late today the following statement was issued by Chairman Knapp of the Interstate Commerce commission: "Nothing has resulted from the meeting held with Mr. Perlman, president of the order of railroad telegraphers and heads of the railway branch of the American Federation of Labor, and the mediator. Chairman Knapp of the Interstate Commerce commission and Commissioner of Labor Neill have abandoned any further effort to bring about a settlement of the switchmen's strike in the northwest."

The soil at the old site was gravelly and they went through this until the water began flowing into the foundation, and this could not work until we had put in the pump.

"The water would pour in as high as a man's head in the space of a couple of hours."

Thomas Evans, a brother of the first witness, testified that he had lived in and about Newark for some years, and was an engineer, furnishing power for thrashing machines and other kind of machinery.

"I helped out my brother, a day now and then, in operating the pump at the old water works site. I didn't pay much attention to the small pump, and don't like to guess at the amount of water which was pumped by the 6-inch pump. It was never filled, but we were enabled to keep the water down by running the engine at about 21 revolutions per minute.

"I worked off and on at the present site from March, 1907, until the end of June. Some days were occasioned by weather conditions, and when the men were not working we didn't run the pump. I should think that we pumped as much per day at the present site, as we did at the old site.

When the pump was not working the water would accumulate 5 or 6 feet deep. I think the excavation at the new site was about the same depth as that at the old, judging from the height the water would rise."

Wilson Connor, a stationary engineer, was shown a trial affidavit of the water works site from 6:30 a. m. until 6:15 p. m. during this time. The pumps were called in August, 1905. After they were tested, we began using them at October 1, 1905, to pump water through the pipes for fire protection. Taylor laid me off about July 16th, till September 17, 1905. I don't know what reason he had for it.

# Delinquent Tax Sale

The lands, lots and parts of lots returned delinquent by C. L. V. Holtz, Treasurer of Licking County, Ohio, together with the taxes and penalty charged thereon agreeably to law, are contained and described in the following list, viz:

OWNER'S NAME	Range	Township	Quarter Pt.	Section	Part of Lot	Section	Acre	Valuation	Delinquency	Tax Due 1909	Tax Due Dec.	Tax Due Jan.

**Run Down?**

Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your druggist about Ayer's Sarsaparilla. Better get it from a doctor of living that comes from a strong tonic. Ask your druggist about this.

**WAIT! WAIT! WAIT! WAIT!**

**THE GREAT WESTERN**  
19 SOUTH PARK.**MAKES KIDNEY  
AND BLADDER  
MISERY VANISH**

**A Few Doses Will Overcome Any Kidney Disorder and Cure a Lane Back—Don't Hesitate a Moment if Kidneys Are Involved.**

Hundreds of folks here are needlessly miserable and worried because of out-of-order kidneys, backache or bladder trouble.

If you will take several doses of Papé's Diuretic all misery from a lame back, rheumatism, painful stitches, inflamed or swollen vessels, nervous bending, irritability, dizziness, worms, sick-feeling and other symptoms of over-worked or deranged kidneys will vanish.

The uncontrollable, smarting, frequent urination, especially at night, and all bladder misery ends.

This unusual preparation goes at once to the disordered kidneys, bladder and urinary system, and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it.

The moment you suspect any kidney or urinary disorder, or feel rheumatism coming, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Papé's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Papé's Diuretic, of Cincinnati, is a large and irresponsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Papé's Diuretic, and a few days' treatment means clean, active, healthy kidneys, bladder and urinary organs—and you feel fine.

Accept only Papé's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

**OBITUARY****TAYLOR SPEAKS.**

Taylor Speaks, a farmer residing at Eddyville, Mary Ann township, died at his home Wednesday evening about 8:30 o'clock, after an illness of two weeks of spinal meningitis. The deceased was born in Virginia and at the time of his demise was aged 62 years, 6 months and 9 days. He leaves a wife and eleven children.

Funeral services will be held at the church in St. Louisville Saturday morning at ten o'clock and interment will be made in the St. Louisville cemetery.

**After The Grippe**

"I am much pleased, to be able to write and thank you for what Cardui has done for me," writes Mrs. Sarah J. Gilliland, of Siler City, N. C.  
"Last February, I had the Grippe, which left me in bad shape. Before that, I had been bothered with female trouble, for ten years, and nothing seemed to cure it. At last, I began to take Cardui. I have taken only three bottles, but it has done me more good than all the doctors or than any other medicine I ever took."

**Take CARDUI****The Woman's Tonic**

For the after-effects of any serious illness, like the Grip, Cardui is the best tonic you can use. It builds strength, steadies the nerves, improves the appetite, regulates irregularities and helps bring back the natural glow of health. Cardui is your best friend, if you only knew it. Think of the thousands of ladies whom Cardui has helped! What could possibly prevent it from helping you? Remember you cannot get the benefit of the Cardui ingredients in any other medicine, for they are not for sale in any drug store except in the Cardui bottle. Try Cardui. Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free.

**SPEAKERS FOR  
SUNDAY MEETINGS  
AT THE Y. M. C. A.**

An eloquent Zanesville man, who happens to be a minister as well, is to speak at the meeting of men Sunday at 3 p. m. in Y. M. C. A. hall—Rev. E. J. Wright. He is a forceful speaker and men like to hear him.

The rest of the January Sundays will be provided with speakers who will bring something worth an effort to hear. The list is as follows: Jan. 16, President Walter G. Clappinger of Oberlin University; Jan. 23, Dr. Albert Sidney Gregg, Cleveland, secretary of the National Reform Bureau; Jan. 30, Rev. H. M. Wiesocki will give an address on "Divorce, An Economic and Moral Problem." Men from various parts of the country often come to these Sunday meetings.

**Effective Home Cure for  
Tuberculosis**

It is a serious matter, when the lungs are affected. A trip away, or to a sanatorium, is not only tremendously expensive, but it involves separation from home and friends. Some are benefited; but none can safely return to their homes.

Eckman's Alternative is effective in curing Bronchitis, Asthma, and more serious affections of the lungs. No leaving home and friends is necessary. For instance:

In the Fall of 1905, I contracted a very severe cold which settled on my lungs. At last I began to raise sputum and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and continued taking it the last week in October. I began to improve and the first week in January, 1906, I resumed my regular occupation, having gained 15 pounds, fully restored to health. It is now four years since my cure has been effected and I cannot say Eckman's Alternative too highly. I have recommended it to others with excellent results.

(Signed) W. M. TATEM  
Eckman's Alternative is good for Throat and Lung Trouble and is on sale at W. A. Erman & Son's drug stores, Arcade bldg., Cor. Main and Union sts., and 359 E. Main st., and other druggists. Ask for Booklet of cured cases, or write to Eckman Mfg. Co., Philadelphia, Pa.

**DISCUSSED PLAN OF  
LAYMEN'S CONVENTION**

Ministers and Laymen representing almost all the denominations in Newark, came together at the Y. M. C. A. at 4:00 p. m. yesterday to meet Mr. L. J. Nichols of Dayton, who came representing the Laymen's Missionary. The plans of the movement are of such a practical character that it was the conviction of every one that Licking county ought to be well represented at the coming convention of the Laymen's Missionary Movement to be held in Dayton Jan. 25-27. This is the Central Ohio convention, 43 counties being included and fully 1500 commissioners, each one representing his own church, are expected. Licking county may be able to send 100 picked men. Each church is entitled to three delegates and one in addition for each 100 members.

Another meeting will be held at the Y. M. C. A. at 3 p. m. Sunday and every church in town is urged to send its pastor and two laymen to this meeting as a county central committee will be organized there to work up the Licking county delegation.

Noah Andregg Geo. W. Havens  
Asbury Bishop George F. Fromholz  
Charles O'Bannon

#### BASKETBALL

On Saturday evening at 7:30 in the Y. M. C. A. gymnasium the last local team will toss baskets with the fast aggregation from Westerville. Mr. C. F. Saunders, who plays center for the visitors, has been Oberlein's star for the last two years and this year their captain will play center against Mr. Livingston. This is not the first time these two men have met and it promises to be a battle royal between them.

Newark will play her strongest men and those evening to see the game will be rewarded by seeing probably the fastest game of basket ball ever played in the city of Newark.

The Newark team this year is probably the strongest team Newark has had since the days of the old Wolves. So far it has not been defeated this year, their last game being with Denison University about two weeks ago and Newark took them over to the score of 35 to 25.

The game will start promptly at 7:30 p.m. Bleacher seats will be put up in the main floor of the gym so a large crowd can see the game very comfortably without having to stand.

## JUMPED TO ESCAPE FIRE

## SHOOTING IS A MYSTERY

Reading Pa. Jan. 6.—Frederick Neibauer, prominent politician and Democratic leader, was shot and fatally injured in his office today by an unknown man who later fled.

The cause of the shooting is not known.

## THE DOCTOR'S QUESTION

#### Some Advice Against the Use of Hush Purges and Physics.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that if your course of illness is attended with irregular bowels and torpid liver. This condition poisons the system with waste matter and causes accumulation of gases which must be removed through the bowels before health can be restored.

Saints, emetics and cathartics may be daily likened to dynamite.

Through their harsh, irritating action they force through the bowels, causing pain and damage to the delicate intestinal structure which weakens it.

whole system, and at last only produces temporary relief.

The use of such treatments causes irritation of the bowels, dries and irritates tissues, deadens and generates pain which brings about an injury which sometimes has almost fatal results.

We have a pleasant and safe remedy for constipation and bowel disorders in general.

We are so certain of its value that we propose to return every cent of money in

where it fails to produce a definite result.

This remedy is called "Perryton."

It is a specific for all stomach and

intestine trouble.

Our citizens took advantage of the

sale last week, and a great many

went on sleds to Newark and other

places.

Russell Holman, son of A. N. Hol-

man, met with what might have been

a serious accident New Year's Day.

He was coasting down Gobblers Knob

when his sled became unmanageable

and ran into the fence in front of

Mrs. Bradford's house. His head and

face were badly bruised and one eye

swelled shut, but no serious results

are anticipated.

Miss Warfel of Iowa visited his

sister, Miss Mary Warfel, last week.

Lewis McCollum of Granville was in

the village Dec. 31st and bought the

Elmer Booth property in this place.

Miss Mineray Baker and brother

Greely spent the holidays at Utica the

guests of their uncle, Walter Hol-

man.

Mr. Conger of Coshocton was the

guest of his brother, Harve Conger,

the first of the week.

Miss Eddie Lewis of Maple avenue,

Newark, spent the holidays the guest

of relatives here and in the vicinity.

Mr. Wat Seward and Mr. Richter

of Newark were in the village Friday

and took dinner at the Miller House.

Many a fellow doesn't worry be-

cause he's afraid the girl won't make

as good as wife as his mother used to

make.

About the time lots of us reach

the point where we are able to make

a comfortable living we are old enough

to die.

The trouble with a pull is that it

doesn't always pull the right way.

The people who are sure something

dreadful is going to happen are terri-

bly disappointed when it doesn't.
